What is an eLibrary Card?

- It's not an actual library card—it's a "virtual" card.
- Students use the code **212739** plus their student ID number to gain access to TPL electronic materials, including eBooks, authoritative information for all levels of student research, global studies, worldwide news and much more!
- To access the electronic content, visit <https://troypl.org/teen.php>
 - Click on eResources to access databases for research
 - Click on Teen eBooks to access free eBooks and audio books to read or listen to on their iPads!
